

A non-profit Educational Company

**For parents, grandparents, aunts, uncles, young adults, anyone may attend...**

**Major Topics Addressed: Bullying & Substance Abuse**

**If a teen associates with people who are using drugs or displaying self-destructive behaviors, then he or she is at a higher risk of doing the same.**

Using real-life stories, cinematic dramatizations and dynamic visuals, Motivational Productions new film **BEHIND THE FACES** will make students think about the people who have some of the most influence in their lives...  
**...their friends.**

Friendships are an important part of life and whom you choose to hang out with can affect or alter the direction of your life. We want to teach teens to use their best judgment when it comes to selecting who to call a friend.

**BEHIND THE FACES** will present three different examples of friendship and what to expect from them:

**FOOLISH** friends who make poor choices and don't really think about their future.

**FAKE** friends who talk and act like friends, but in reality are only interested in themselves.

**REAL** friends who are the ones which can be counted on, the ones with good reputations, morals and values in their life.

**BEHIND THE FACES** will feature real life examples of bad friendships that went wrong, and others that will motivate and inspire students to consider who they call "friend"... and how to be a valued friend themselves.

Featuring clips from the latest Hollywood films and a blazing soundtrack of today's popular music!
